

## Important notice to our valued guests during the COVID-19 crisis

Our job is to keep our guests and crew safe. Now more so than ever during the COVID crisis. **Please ensure you arrange for a PCR or antigen test within 7 days of boarding. We will also be providing complimentary antigen testing before boarding. This is required for your safety and that of our crew.** If you test positive in Cabo, we will arrange for a medical diagnosis and if the virus is active, you are required by law to go into 14 day quarantine. Per CDC guidelines, if you test positive and are asymptomatic it is recommended that you get a second test. A false positive could occur in which case you will want the retest results. IF you do test positive, we require a doctor's note or medical report confirming the diagnosis, and you will receive a full credit towards a makeup trip on a later date of your choice. All of our crew members are regularly tested, both on and off the boat. Please read COVID FAQs [here](#).

Please bring your printed results, and your temperature log with you for pre-boarding check-in. Medical staff from the hospital will be at SeeCreatures at 4 pm to carry out the testing before your departure. **Guests need to be at SeeCreatures by 4 pm on the day of boarding for liveboard trips.** It will take a bit of time to conduct the testing while keeping everyone socially distanced, so being there on time is important in order to get the lab results back before the ship sails.

### COVID-19 Best Practices

We hope that everyone is staying healthy and safe. Our goal is to get divers back in the water once it's realistic and safe and in a way that maximizes safety and minimizes contagion. As the situation with Covid19 evolves, we will continue to adapt and improve the measures we are taking.

- We are requesting and requiring guests to monitor and record their body temperature twice a day for the week before boarding.
- **We request that guests please wear masks as much as possible onboard. Social distancing including additional dive skiffs, staggered meal times and briefings. Masks are mandatory when social distancing is not possible or when on the dive deck or dive skiffs.**
- Vital Oxide hospital grade disinfectant with 7 day hold time applied with fogging machines.
- An intense focus on onboard sanitation from supplying sanitized rental gear in vacuum packs to crew assisted buffet service to motion activated hands free sanitation stations on the back deck. Mask Rinse buckets are unfortunately a thing of the past.
- Temperature and health checks and requiring that everyone onboard wears a mask in public spaces.
- Protocols and equipment in place IF someone onboard does get sick.
- **[Click here for Nautilus safe travel recommendations and requirements](#)**

We cannot promise that there won't be somebody onboard infected with the virus but we can promise that we will do our best to provide the most thoughtful, safest and healthiest possible environment. Our Covid19 policies have been formalized within our emergency processes, our SMS safety management system, our training and accountability protocols and our onboard daily checklists as well as in consultation with shoreside authorities. Please stay safe.
