Typical Itinerary*

4 Days / 3 Nights Trip

Welcome! We're excited to have you join us. We're at your service to give you the best possible vacation and experience. Please feel encouraged to contact our concierges for help with any pre-trip requirements, recommendations or assistance. Fly into SJD international airport. Your coach transfer to the airport for your flight to San Ignacio Lagoon departs SeeCreatures at 7 am on Day 1. 6:30 am pickups from the Solmar Hotel group are available by prior arrangement. It's always fun to visit Cabo and there is lots to do around Baja. While it is necessary to fly in at minimum the day before your lagoon departure to make our meeting time of 7am for the lagoon, we encourage you to come in earlier and take advantage of Baja and our pre-trip packages.

We recommend the Casa Bella Hotel in Cabo San Lucas. Which is conveniently located next door to SeeCreatures Cabo. SeeCreatures is our dive centre, and your home away from home! Take advantage of local diving before or after your trip. SeeCreatures is also our check-in location.

If you prefer a beachfront resort, we recommend the Solmar Resort and Playa Grande Resort. They are sister resorts and only a 15-minute walk / 5-minute drive!

**Itinerary is subject to the vagaries of big animals, weather and mother ocean!*

The Day Before Your Trip

Fly into SJD International Airport. Complimentary photo and video workshop at SeeCreatures Cabo San Lucas at 9:30 am. Afternoon ocean safari searching out humpback whales at 1:00 pm.

We hope that divers and snorkellers will join one of our regularly scheduled day trips to head out for some additional adventures, and for those who have always wanted to try scuba diving, why not sign up for a Discover Scuba lesson. **Hotel stay and meals this day are not included with your package.**

Day 1 - Meet the Gray Whales!

Your adventure begins with a private 1 hour 50 minute flight from Cabo to our airstrip at the Lagoon.

On arrival, our staff will meet you at the airstrip with welcoming smiles, glasses of champagne and hot apple cider, and we will travel to camp for brunch and welcome aboard briefing. After lunch, you have the option of two whale watching encounters or enjoying camp. Cocktail hour. Watching the sunset around one of our fire pits. Dinner. Presentation by one of our naturalists.

Days 2-3 - San Ignacio Lagoon

(on our extended 6 day trips, you get 2 extra days with the whales!)

Your stay in camp is all about you! It's your choice to join us for a 7 am breakfast and then head out for your first whale watching encounter of the day when the park opens at 8 am. Or if you prefer, enjoy sleeping in and having a late breakfast and joining our second scheduled whale watching expedition late morning. As long as the weather cooperates, there will be 3 scheduled whale watching encounters every day, plus all the activities offered at camp, including kayaking or paddleboarding across the lagoon in the mangroves, going for a leisurely walk, mountain biking, or just kicking back with a good book and accompanying beverage. Cocktail hour, sunset viewing, making new friends around one of our fire pits, a game of billiards, dinner, and evening presentations by our naturalist are all fine ways to finish off your day in camp.

Day 4 - Return to Cabo

Early breakfast and one more whale watching encounter before your flight back to Cabo at 12:30 pm arrival at the SJD FBO.

Optional Baja Ultimate Whale Adventure

© Chasse Dekker

The most majestic whales on the planet are right here. Imagine upgrading to an 8 day / 7 night adventure combine blue whale mamas and babies, humpback and fin back whales, swimming with whale sharks and sea lions, enormous pods of dolphins, mobula rays, our company spotter airplane and much more with the gray whales of San Ignacio Lagoon.

Starts in Cabo San Lucas with a morning photo workshop and then a five-hour ocean safari with catered lunch on the lookout for humpback whales. Private coach transfer to La Paz and check-in to a boutique hotel. All meals are provided.

On day two, head out to swim with whale sharks (weather permitting) and then over to Espiritu Santo for a beach camp and lunch. Afternoon snorkelling with sea lions. And then board our 116-foot expedition yacht for a three night adventure up toward Loreto looking for blue whale mamas and calves. Not to mention huge pods of dolphins, finback whales, and much more.

If it's late in the season, we may not see as many blue whales, but we're sure to see enormous schools of mobula rays, and our spotter aircraft will be up in the air for five days a week scouting for orcas. Back to La Paz for a guided walking tour.

Then an afternoon flightseeing flight up to San Ignacio Lagoon for a four days and three nights glamping or luxury camp stay and meet the gray whales. 1 hour 45 minutes flight to the FBO executive terminal at SJD.

\$4,995 USD (Luxury camp accommodation). Divers are encouraged to bring their scuba gear for limited diving.

[Upgrade to Baja Ultimate Whales](#)

TRAVEL DETAILS

What airport do I fly into?

SJD, Los Cabos International Airport

When should I fly in?

At least one day early. Of course, this is Cabo in peak winter season and we encourage you to fly in well before that and enjoy Los Cabos and La Paz and the Sea of Cortez. There is so much to do and our concierges are on standby to help you with questions, recommendations and arrangements. Please note that there is a complimentary photo workshop at 9:30 in the morning the day before you fly to the lagoon as well as an afternoon ocean safari with humpback whale watching.

Why do your trips leave out of SJD?

Because the shortest flight to the Lagoon is from SJD which is super easy to get to with service from 15 different US cities, most of Mexico and even direct flights from overseas. Because Cabo San Lucas in the winter and spring is a really fun place to visit!! Because you won't have any border crossing hassles. And because we offer all sorts of other activities from our Cabo San Lucas base including swimming with whale sharks and other adventures in the Sea of Cortez, scuba diving including our Socorro giant manta liveboard trips, photography workshops and much more.

Can I make my own way to the airport to board the flight?

Unfortunately no. We depart from the secure private FBO Executive terminal, and it's not possible for a taxi or rental car to get past security.

What kind of airplane is used for flights to the lagoon?

Late model Cessna 208B Grand Caravan. These are 13 passenger airplanes with a jetprop engines, air con, leather seats, good soundproofing and a large cargo pod.

Is there a baggage allowance on the airplane?

Yes, 22 pounds (10kg) per person. Soft sided bags please. You are very welcome to leave your suitcases in storage at SeeCreatures Cabo San Lucas while you're in camp.

Is there another way to camp or do I have to fly from SJD?

Our camp is fly in only.

What time does the flight arrive back in SJD?

Normally 12:30pm. It's easy to fly home that same afternoon but we recommend booking your flight at 2:30pm or later. It's our pleasure to transfer guests from the FBO private terminal directly over to terminal one or two at the airport when the flight gets in.

When is the best time to visit?

We only operate in peak season when large numbers of whales are present from January through April.

How do I get from SJD into town?

Sealine Cabo Transfers is our recommended provider of airport transfers to and from Cabo San Lucas. For booking, please email Martin at mmoreno@sealinecabotransfers.com

We also recommend Miguel from Fara Nuevo as an alternative option.

Email: mfc949@gmail.com

Phone: +52 (624) 141 6254

Do you have hotel recommendations in Cabo San Lucas?

We recommend the Casa Bella Hotel conveniently located in the same building as SeeCreatures Cabo. To book, please contact **Barbara** and let her know that you are a client of Baja Expeditions / Nautilus.

To book Casa Bella Hotel

<https://www.casabellahotel.com/>

info@casabellahotel.com

+52 624-143-6400

We also recommend the beachfront Solmar hotel group with accommodation ranging from the more basic Solmar Hotel to the very nice Playa Grande to the luxury Solmar Grande. The beauty of these resorts is not just the great people and being on the ocean, it's quiet but just a short walk or taxi ride over the ridge and into downtown Cabo.

Please contact our concierges for hotel booking info to take advantage of our contract rates with Solmar.

Where do we meet?

SeeCreatures Cabo anytime after 6:30 am. Our private luxury coach will be departing at 7 am. Pickups are also available from the Solmar hotel at 6:30 am. by prior arrangement.

What will the weather be like?

Well, it's the desert, which means that it can be cold at night, down to the low 40s°F. Low temps in the mornings and then the clouds burn off by early afternoon and become warmer. Some days are calm. Some days can be quite windy. We are very lucky to have our camp on the north side of the lagoon where there is far more protection from the elements than the other camps on the south shore.

Can you accommodate special dietary requirements?

Yes, with at least 30 days advance notice, we will be happy to accommodate your dietary needs, whether vegetarian, vegan, lactose intolerant, gluten-free or halal/kosher quasi-vegetarian.

What's included with my trip?

Transportation, whale watching, accommodation, all activities, all meals and snacks, and non-alcoholic beverages.

What is NOT included in my trip?

Park and airport landing fees totalling \$35 USD per person, alcoholic beverages, single occupancy (if available, surcharge applicable), internet access, and if you think the service is deserving, crew gratuities - typically between \$250-300 USD per person.

ABOUT GRAY WHALES

Will I see gray whales on this trip?

Yes! There are lots of whales in the lagoon and typically 300 to 400 are friendly and interactive with humans. Gray whales first arrive in the lagoon in December and are present through the end of April. There is seasonality to the sightings. More mating activity happens at the beginning of the season and this is when we see newborn calves. The mamas and calves stay in the lagoon until the babies are big enough to safely make the 3000-mile northward trek to BC and Alaska. Towards the end of the season, the calves can be especially friendly.

Why are we trying to touch the whales? Is this bad for them?

Encounters and interactions with them are entirely on the whales' terms. We only interact with the whales in a small designated area and are very careful to stay away from them in the rest of the lagoon. The whales who are interested in humans literally swim over to this area and approach the pangas. The encounters are not forced in any way. The local captains are very careful not to approach or harass the gray whales. One of the extraordinary things about this interaction is that the whales only approach humans in Baja lagoons. During the rest of the year they are quite shy and reclusive and maintain the normal distance that you would expect between whales and nearby boats.

Interesting to note that gray whales were known as "devil fish" because during the terrible days of industrial whaling, harpooned gray whales would turn around and attack the whalers. Sometimes managing to sink the whaling boats and kill the whalers. All of that changed in 1972 when whaling was outlawed virtually everywhere in the world, and a local fisherman named Pachico felt an irresistible urge to reach out and touch a whale that presented itself beside his boat. We suspect that both Pachico and the whale were astonished by the interaction. Within a year, four whales and a handful of fishermen were interacting with each other. The behaviour we are so lucky to enjoy now grew from those first encounters.

How much whale watching is included in my trip?

Typically two afternoon whale watching encounters on the first day in the lagoon. Opportunity for two morning sessions and an afternoon session on day two and three in the lagoon. And one morning session before flying out on day four in the lagoon. Not all guests choose to do this much whale watching. It's entirely your option. It is important to note that it can be windy sometimes in the lagoon, which might limit the number of whale encounters that day. Rest assured that we always do our very best for you.

Important to note that the whale watching takes place entirely in one designated area with a maximum of 16 boats at one time. This means that when the lagoon is at its busiest. Each panga can stay in the reserve for 90 minutes maximum and then needs to exit to allow another panga to enter.

What kind of boats do you use for whale watching?

Whale watching excursions take place on "panga" boats typically 24 - 28-ft in length. While these boats can accommodate up to 12 guests, we do our best to run with just 6 to 7 guests plus a captain and a naturalist whenever possible. Please note that operational realities in the lagoon may mean that sometimes we have to run with more guests in the pangas. The operation of these boats is a joint venture with the local captains and fishermen which we see as eco-tourism at its finest. Six of our pangas are brand new, leased back to local captains for one dollar per year to help them maximize their earnings with the nicest possible boats.

Pangas are widely used throughout Baja and known for their sea kindliness and efficiency coupled with a good amount of speed. Interestingly, the design dates back to a 1970s project and joint venture between Yamaha outboards and the world bank. The design brief was to build a fast and efficient boat for the local fishermen. The name "panga" evolves from the panga fish that the boats were originally designed to fish for.

My mobility is somewhat impaired. Will I have any trouble boarding the pangas?

No, we have wooden boarding ramps with handrails on both sides of the ramp which make the pangas quite accessible

I have a bad back. Is this a problem?

No. Just please let us know ahead of time. We have a limited number of comfortable special chairs that we can rig up in your panga.

WHAT TO BRING

What should I pack?

We strongly recommend bringing layered clothing. It's not uncommon to be wearing a shirt, several sweaters and a windbreaker at 7am and then just a t-shirt by noon. Rain is very uncommon in this area, with the exception of one or two Pacific clouds that pass through every season. Rubber boots are an excellent idea. We have loaner boots and jackets available for everybody.

Comfortable clothes for camp: cotton T-shirts, long sleeve shirts, warm sweaters, shorts and pants, windbreaker, many people bring waterproof pants, a warm jacket, warm sleepwear, lots of extra warm socks, tennis or hiking shoes, water friendly sandals, dry bag, flashlight, sun hat, sea safe sunblock, personal medications, and a camera with loads of SD cards.

Can I bring my own beer, wine or alcohol into camp?

Sorry, no. For liability reasons, we are not able to allow any outside alcohol into camp. We stock one heck of a bar with a great selection of craft beer, wine, single malt scotch, fine vodkas and much more all at very reasonable prices. We know that you're on vacation. We want you to have a great time and that includes a great selection of drinks at lowest possible pricing.

Do I need to bring my passport?

Entry into Mexico requires a passport that still has six months of validity

Do I need a visa?

Mexico requires visas from a certain but small number of countries. Please double check your specific requirements online or contact us for assistance.

Do I need medical evacuation insurance?

Yes. Because of the remote location of the camp, medical evacuation insurance is required for all guests. We can assist with a purchase of this insurance and it's very affordable. [Click here.](#)

Should I buy travel interruption insurance?

Yes, highly recommended. We have seen too many guests with a cancelled or delayed flight or problems at work or some other reason for a trip being delayed or cancelled.

CAMP DETAILS

What are the tents like?

The short answer is pretty darn luxurious! Our Glamping tents are Weatherhavens which are well known from expeditions as far as the Arctic and all the way south of Antarctica. Each tent has adjustable twin beds or one quasi king and an ensuite bathroom and shower. 24-hour AC power. Lights. Heat. Hot and cold running water. Internet access. And of course, a chandelier over the bed.

Our luxury tents are considerably larger with adjustable twin beds or one king bed. As well as a sitting area with couches and chairs, a dresser, and a much larger bathroom even including twin vanities.

We also have a limited number of family tents which are the same size as the luxury tents, except the sitting area is replaced with extra beds for kids and teens.

Double-size tents are used for the different dining areas and bar.

Is there Internet access in camp?

WiFi is available for your convenience. Starting in 2025, there will be a charge of \$25 per device per trip. We use Starlink Internet and ask everyone to please be considerate of how much data you use so that everyone has reasonable access.

Is there a 24 hour power in our tent?

Yes!

How often can I shower?

Every tent has a full ensuite with hot and cold running water. There is ample water in camp for everyone to take a hot shower every day. But we do ask you to limit it to one shower because water is a very precious commodity in the desert.

Is there anything to do in camp other than whale watching?

Yes! Of course! Our camp is located beachfront right on the lagoon in the Vizcaino desert and biosphere reserve. It's a gorgeous setting. Watching the sun come up over the Sierra Madres mountains in the morning is stunning. Watching the sunset over the desert at the end of the day is good for the soul and very beautiful. The desert is a quiet and still place but there is lots to do from birdwatching to kayaking, paddle boarding, star gazing under the spectacular Mexican night sky to the billiards table and volleyball court that we set up in camp.

Will it be quiet in camp or will a generator be droning away?

Our eco-experience camp is silent but don't be fooled! We have 24-hour AC power.

Are children welcome in camp?

Kids and teens are welcome in our Glamping camp. There is an age minimum of 15 years old in the luxury camp unless it's a whole camp buyout.

Are mosquitoes and bugs a problem?

No, but keeping your tent zipped up all the time is a good idea. If for no other reason, it will keep the coyotes out!

What happens in the case of an emergency?

Our camp operates with the same emergency preparedness and protocols as our ocean-going liveaboard ships. You can be sure that our camp will be stocked with an AED, emergency oxygen and extensive first-aid equipment and that we have trained "first responders" on site. In the very unlikely event of a medical emergency, medevac flights are available to an acute care hospital in Cabo.

MORE ADVENTURES

What can I do in Cabo San Lucas before or after my visit to the Lagoon?

Plenty!!! Take a day trip to the Sea of Cortez with us and swim with whale sharks (weather permitting), snorkel with sea lions, spend a day kayaking around the Unesco World Heritage site, Isla Espiritu Santo, or a day at Balandra Beach or a couple of days in our eco-experience camp. For divers, we have daily departures for 2 and 3 tankers out of Cabo, day trips to Cabo Pulmo and for more experienced divers, the sea mounts at Gordo Banks. For non-divers, ask about our Discover Scuba intro. Of course, the ultimate activity is to charter our 45-ft luxury sailing catamaran in the Sea of Cortez or join one of our liveaboard trips.

Can I make this a longer trip? What activities are available if I fly in early?

We have loads of different activities on offer as pre-and post trip extensions. From our very popular Baja Ultimate Whales that adds a complete package, from swimming with whale sharks and sea lions to cruising on our expedition yacht looking for mama and baby humpback whales, finback whales, huge pods of dolphins and much more, [click here to see the adventure](#). To day trips that might include an Introduction to Scuba, snorkelling with whale sharks, kayaking adventures, lots of different options for certified scuba divers, Mobula and Orca Ocean Safaris, multi-day sailing, or eco-experience camp, and to our extremely popular expeditions to Socorro Island.

PASSENGER GUEST WAIVER, RELEASE AND INDEMNITY (the "Waiver")

In consideration of you allowing me to participate in your camping and/or whale watching and/or excursion (the "Excursion"):

I voluntarily waive, release and forever discharge NAUTILUS DIVE ADVENTURES AND/OR all its related entities: ICARUS AVIATION LTD also doing business as "Lever Diving" AND/OR NAUTILUS EXPLORER MEXICO, S. DE R.L DE C.V. AND/OR BAJA EXPEDITIONS AND/OR BSK, S.A. DE C.V. AND/OR SEECREATURES AND/OR CABO DIVE CENTRE, S. DE R.L. DE C.V (collectively the "Company") and its employees, directors, officers, agents and contractors (collectively the "Operators") from any and all liability, including but not limited to liability arising from the negligence (including gross negligence) or fault of the Operators or any of them for personal injury or death, property loss or damage or any other claims of any kind which may occur to me during or in connection with the Excursion and/or the use or misuse of any equipment, vessels or vehicles.

I agree that all agreements made between the Operators and myself (including this Waiver) shall be governed by the laws of Mexico and the courts of Mexico City, shall have exclusive jurisdiction over any matter relating to the said agreements or this Waiver.

I agree that this Waiver shall be binding upon my heirs, executors, administrators, successors, assigns and my estate and I agree that in the event that a claim is made against the Operators or any one of them in respect of any cause of action relating to me, I will indemnify the Operator(s) for their losses, damage and expenses arising from such claim.

I confirm that I have both read and fully understood the description of the risks involved in participating in the Excursion as set forth in the Company's disclosure information entitled "DIVING EXCURSION RISKS" published on the Company web site (<https://nautilusliveboards.com/diving-excursion-risks/>) and in the pre-trip information package provided to me.

I also confirm that I:

- (a) am physically fit; without any health related reasons that would otherwise preclude my;
- (b) have had sufficient instruction, preparation and/or training for; and
- (c) have not been advised by any medical professional to avoid participation in the Excursion.

Finally, I confirm that I read and fully understood this Waiver before signing and, that I had the opportunity to do so before making any commitment of whatsoever kind or nature to the Company.

Please note that you will be required to sign this waiver form upon the arrival at the hospitality suite.

Our Responsibilities, Your Responsibilities

Our Responsibilities

- To ensure your safety.
- To give you the best possible experience.
- To treat you with respect and consideration and to provide excellence in service.
- To be responsive to special requests and needs.
- To plan each trip with respect to weather, sea conditions and animal behavior in order to maximize your experience.

Your Responsibilities

1. Animals

We love Mother Ocean! Unfortunately, sometimes guests will demonstrate unsafe or irresponsible behavior towards animals that impedes other guests' experiences and/or may cause harm to the animals. It is your responsibility to follow the staff's directions and recommendations with respect to interaction with the animals. In the unlikely event that an individual is impeding other guests and/or causing harm to the animals, the camp manager will speak to that person and give them a formal warning. If the guest continues the same behavior, the camp manager has the authority to hold that guest off the water for the remainder of the trip.

2. Alcohol

With over 30 years of operational experience, we have learned the safest alcohol policy is to restrict guests from bringing their own alcohol to the campsite. We provide a wide selection of beer, wine and alcohol at our bar at reasonable prices. We are also happy to hold your duty-free purchases or local purchases of alcohol in bond with your luggage in Cabo San Lucas until the end of your trip.

3. Government Rules

You must comply with all Mexican government rules and regulations. Please note that government regulations and laws may change without notice. Our contract with you is subject to "force majeure" without compensation.

4. Marijuana

Marijuana is illegal in Mexico including medicinal prescription marijuana. We have a zero tolerance policy regarding guests bringing marijuana to our camp.

5. Illegal Substances

We maintain a zero tolerance for illegal narcotics or substances. We're required under Mexican law to report any problems to the Mexican Federal Police.

6. Staff

Treating our staff with courtesy and respect.

7. Getting Sick

We sincerely hope that you stay healthy and don't get sick during your trip. Please let the crew know if you are not feeling well so that we can give you extra love and attention and also do our best to prevent anyone else in camp from getting sick.

A Note on Gratuities

© Scott Davis

I hope we leave you with the feeling that our crew has served you with warmth, good cheer, and has done their very best to provide you with a sense of being safe, along with excellence in guest services. I am very proud of our hard-working and dedicated staff.

Attitudes towards tipping vary in different places around the world. In Mexico, it is considered offensive to the crew and staff to not leave a gratuity if the service is deserving. For your guidance, most guests leave a tip of between US\$250 to 300.

On a personal note, I am always appreciative of any comments or feedback about your experience with us and anything that we can improve on. Comments can be made in confidence from any personal computing device on our WiFi at <https://NautilusExperience/nautilus>.

As a personal note to thank you for joining us, and if you are interested in the possibility of last-minute travel for repeat clients (only) with incredible savings of up to 75% with offerings 3 or 4 times a year, I would like to extend an invitation to join our Last Minute Club <https://nautilusliveboards.com/last-minute-club/>.

Thank you very much for trusting us with your vacation!

Sincerely,

A handwritten signature in black ink that reads "M. Lever".

Captain Mike
Founder
Nautilus Adventures

Mexico Customs and Cameras

We have received reports of isolated incidents in which Mexican Customs (Aduanes) has charged taxes cameras and housings being brought into the country by divers. While this is a violation of both Mexican and international law, local officials have continued with this illegal behaviour. We are fighting it in every way that we can with the help of our lawyers and the tourism boards.

In the meantime, the easiest way to avoid problems with customs is to pack cameras and equipment in regular looking suitcases. NOT in pelican cases. No dive stickers. No destination stickers. Just plain old carry-in suitcases. Mexican customs seems to focus on luggage that looks like it contains dive or photography gear.

We are very sorry for this hassle. It's not fair. We sincerely hope that things will revert back to normal with the newly elected government in 2024.

Other steps that you can take in case your luggage is identified as dive gear

1. Carry invoices for the used depreciated value of your camera and housing. The lower the dollar amount, the less illegal duty you will be assessed.
2. If you do get assessed duty, make contemporaneous notes. Including the identification of the customs officer. They likely won't let you take their photo but they do have to show their badge number. Be sure you note the time, place, badge number and the amount you were assessed.
3. Use your credit card to pay any duties or taxes. That way you can dispute the charge with your credit company. This is where your contemporaneous notes will be very valuable.
4. Please let our concierges know what happened. We will fight hard on your behalf.
