

We are excited to have you join us, but feel compelled to point out **some of the risks involved in our adventures around Baja, Mexico and the surrounding ocean.**

We operate at the whim of Mother Nature. Our ships and camps have connectivity with shore operations, and we carefully monitor weather conditions while maintaining communication lines for urgent and emergency situations. Our ocean-going ships are equipped with satellite communication technology, full-time data links, internet at sea, and marine radios. We need you to be aware that there is always a risk of adverse weather, mechanical breakdown, errors, or mistakes made by our crew, medical evacuations, or other interruptions to your trip that are beyond our control.

Dealing with animals involves risk. Camping out in the desert involves risk. Going to sea involves risk. This is not Disneyland. We give careful guidance on peak seasons and our previous experiences with the animals. But there is no guarantee that you will see the animals you are hoping for; Mother Nature doesn't work that way. Guests and crew alike are susceptible to accidents, tripping and falling, sprains, or broken bones, strokes, heart attacks, or medical conditions such as appendicitis, pancreatitis, diabetic complications, heat or sun exhaustion, dehydration, severe infections, abscesses, or other emergency conditions.

Diving can be challenging and may not be suitable for less experienced divers. You must be a trained and certified scuba diver to dive with us unless you are enrolled in one of our training programs. Guests are responsible for their own dive safety. Our dive guides and instructors are primarily responsible for ensuring top-quality dives, critter pointing, and the best possible guest experience. You must have good buoyancy control. Our guides are not responsible for teaching primary dive skills or looking after guests who do not have basic buoyancy skills.

Aerial medevac is available at or close by most of our destinations. We require that all guests have insurance that covers emergency care in Mexico, including aerial medevac and hospital procedures. A medical evacuation flight might cost \$10,000, and local hospital charges could be in excess of \$20,000. You will have to arrange for payment upfront for these costs if you require evacuation or a hospital stay and your insurance won't cover the charges. **'Dive Assure'** offers excellent coverage and is highly recommended. [Click here](#) to arrange coverage.

A sample [liability release and waiver can be viewed here](#) and requires your acceptance, agreement and signature when you visit SeeCreatures before boarding your ship.

We wish you an excellent trip, meet loads of animals and have a beautiful and safe experience.
