PURA VIDA! LET'S GO!

You are going to hear “pura vida” a lot when you join us in Costa Rica. It represents Costa Ricans’ relaxed attitude towards life, no matter the circumstance. It’s used to say hello, goodbye, to express that everything is okay, and to brush off any negativity. It’s a way of life, an attitude, and a reminder to us of how extremely fortunate we are to have gained permission to run liveaboard adventures in this truly natural paradise.

Costa Rica is home to some of the world’s greatest biodiversity, with dense jungles, rainforests, national parks, volcanoes, rushing rivers, spectacular waterfalls, sandy beaches, and of course, beautiful diving, hiking, kayaking and swimming. Your booking is for Ocean & Rainforest adventure. Diving in Costa Rica is legendary. Experiencing the tropical rainforest and national parks of Costa Rica is something not to be missed. We will spend most of our time around Drake Bay and the Osa Peninsula. The diving at Caño Island is really really good, with sharks, turtles, rays, huge schools of fish, and hopefully humpback whales.

We plan on to access Corcovado National Park by landing our zodiacs on sandy beaches and venturing ashore with our naturalist and guides for an amazing experience. Corcovado is known as one of the most biologically intense places on Earth, with a high concentration of species in a relatively small area including:

- **Trees:** 500 species
- **Birds:** 375 species, including 24 endemic species
- **Mammals:** 124 species, including endangered species like Baird’s tapir and Central American squirrel monkey
- **Amphibians:** 46 species, including poison dart frogs & glass frogs
- **Reptiles:** 71 species, including bushmaster snakes
- **Freshwater Fish:** 61 species, including bull sharks
- **Insects:** More than 8,000 species

While summer is known as the “rainy season,” don’t be fooled. It doesn’t rain every day, and when it does, it’s usually in the middle of the afternoon when the storm clouds roll in. In terms of animals and diving, this is the best time of year to visit.

Our Ocean & Rainforest adventures no longer depart from the tidal-restricted, gritty fishing town of Puntarenas. Instead, our trips now meet and board at a beautiful, modern marina in Golfito, at the edge of the tropical rainforest, near Piedras Blancas Park, Osa Peninsula, Corcovado Park, and the very best shoreside adventures in Costa Rica. It’s the perfect place for a pre- or post-trip expedition, or better yet, join our Cocos Island of the Sharks adventure. It’s easy to get to Golfito from the international airport at San Jose, either by connecting flight or by road.

ADD THE PERFECT EXTENSION

COCOS ISLAND OF THE SHARKS

Embark on an unforgettable 11-days, 10-nights / 10-days, 9-nights summer adventure. Cocos Island is an oasis for marine animals off the west coast of Costa Rica and is spoken of in hushed tones of wonder by divers around the world. The shark diving experience here is legendary.

[More info](#)[Dates & Rates](#)

Typical Itinerary

4 Days / 3 Nights

Bienvenidos a Costa Rica!!

Costa Rica is an amazing and beautiful place. We heartily recommend flying in early to better experience this wonderful country. SJO (San Jose International) is our recommended gateway airport. If you prefer to stay over in San Jose, our concierges can assist with a very good deal at the Hotel Grano De Oro, and we will provide a complimentary afternoon shuttle van to Golfito on boarding day. However! We recommend heading immediately south towards Golfito upon arrival in SJO. Sansa airlines has multiple connecting flights daily, and once you are in Golfito, the hotels are terrific and there are loads of really interesting day trips.

Alternatively, we can assist with arranging a 3, 4, 5-day, or longer guided driving adventure through the national parks, ending up in Golfito. You could also rent a car and go off on your own adventure. Or, we can help with a private car transfer from SJO to Golfito, typically costing around \$400 USD for a car and driver, including interesting stops along the way. Driving time from San Jose to Golfito is usually around 6 hours. Please note that there are luggage restrictions on Sansa Airlines' Cessna Caravan aircraft if you choose to fly south with them.

Day 1 - Boarding day!

The Nautilus Explorer will be berthed in Marina Bahia Golfito. It's beautiful. We imagine you will be excited to board, but please give our hardworking crew time to get the ship turned around, cleaned, fuelled, provisioned, and ready for you. We ask that you take advantage of the local facilities and not drop by the boat until 6:30 pm. We don't mean to be rude, but it would be much appreciated if you could avoid coming by early to say "hi." Boarding will begin after 6:30 pm, and we will sail by 8 pm to Corcovado National Park.

Day 2 - Let's go diving, snorkelling or kayaking

Cano Island is an excellent visit and your trip starts out with a day of diving or snorkelling, and kayaking. The island is a protected national park and it's beautiful. We've had great luck with humpback whale encounters and we saw hammerhead, white and black-tip reef sharks, mobula and cow nose rays, southern stingrays, moray eels, schooling barracuda, sea turtles, and loads and loads of fish along with coral reefs and a mix of pinnacles, walls, and drop-offs.

Day 3 - Shore expeditions + more diving

For the next day, we will be based out of Drake Bay and the Osa Peninsula, mixing it up with a combination of cool shore expeditions plus more diving, snorkelling, and kayaking. Nearby Corcovado National Park is one of the most pristine parks in Costa Rica, including beautiful deserted white sand beaches, old-growth forests, and the chance for rarely seen animals. It's wet, rugged and remote.

It's the only place in Costa Rica where you can see 4 different species of monkeys, including the highly endangered red-backed squirrel monkey. Your naturalist is amazing at spotting nearby critters, which might include wild pigs, tapirs, flocks of Scarlett macaw parrots, sloths, and crocodiles in the largest mangroves in Central America. While we won't see them all, the park is home to 40 species of frogs, more than 100 species of butterflies, and over 375 species of birds, including 16 species of hummingbirds.

Going ashore is like being in a fantasy where you land on the beach by inflatable boat for a hike in the rainforest and waterfalls to emerge onto another beautiful sand beach with your crew waiting with drinks and snacks at the ready.

Day 4 - Disembarkation

Arrival back at the Golfito marina by 5 am for those catching the early morning Sansa flight. Early breakfast and 7 am departure for guests heading back to San Jose in our courtesy shuttle (to arrive SJO by 1 pm). In case of road closure or washout, we recommend booking a flight after 4 pm to be safe. Or a more leisurely 8:30 am disembarkation for this who are staying on in Golfito (the hotel in the marina is beautiful and well-priced: [Marina Bahia Golfito Hotel](#)) or heading off for another adventure in one of the nearby national parks.

WHAT TO BRING

What do I need to pack?

Personal toiletries. Dive gear (or travel light and use our rental gear!) Summer wear, noting that nights can sometimes be chilly which makes a sweater or fleece jacket a good addition. Windbreaker or rain jacket as it can be rainy in the afternoon. Sunscreen (reefsafe sunscreen will be available onboard with our compliments). Towels and bed linen are provided onboard. Good walking shoes are recommended if you want to go ashore.

What dive gear do I need to bring?

We provide aluminum 80 cu. ft tanks and weightbelts. Larger steel rental cylinders are available. 5 mm wetsuit recommended to avoid losing body core temp during multiple days of repetitive diving. It's always better to layer down rather than be cold with no options. We have rentals onboard by prior arrangement for almost anything you need. Please make any rental requests as early as possible.

Baggage limitations?

Pack lightly since you will be dressing for warm tropical weather. At Customs there are no limitations on the personal equipment such as diving, camera and video equipment as well as computers that are for personal use.

What kind of safety gear do you provide divers?

[Nautilus LifeLines](#), DiveAlerts and SMB safety sausages.

TRAVEL DETAILS

Do I need a passport and/or visa?

YES and it must be valid six months from entry.

US citizens do not require an entry visa to Costa Rica. However, they must have a return ticket to exit Costa Rica within 90 days. (Either to return to your country or to go to another country).

Guests visiting us from other countries may not require an entry visa also. Please check the requirements for your country.

Do I need dive and travel interruption insurance?

Diver medical insurance is required for all diving guests. Non-diving guests need to have medical and evacuation insurance from a recognized provider. We recommend Dive Assure exclusively. They have proven their integrity and coverage many times. [Click here](#) to purchase.

We highly recommend the optional purchase of trip interruption insurance which covers everything from cancelled flights, weather delays or cancellations, lost baggage to lost vacation time if another guest has a medical emergency. If you decline coverage, please note that we do not issue credits or refunds for anything that is beyond our immediate control.

What airport do I fly into?

You have several options, including Liberia and Panama City. We recommend flying into San Jose (SJO) as it is the closest and most convenient. Please don't make the mistake of flying into San Jose, California which is SJC. SJO, not SJC! (Yes, someone has made this mistake previously.)

When should I fly in?

At least one day prior to boarding to avoid any stress from delayed or cancelled airline flights, bad weather at the originating airport, missing luggage, etc.

DON'T FORGET!

What time do we disembark?

Arrival back at the Golfito marina by 5 am for those catching the early morning Sansa flight. Early breakfast and 7 am departure for guests heading back to San Jose in our courtesy shuttle (to arrive SJO by 1 pm latest). In case of road closure or washout, we recommend booking a flight after 4 pm to be safe. Or a more leisurely 8:30 am disembarkation for this who are staying on in Golfito (the hotel in the marina is beautiful and well-priced: [Marina Bahia Golfito Hotel](#)) or heading off for another adventure in one of the nearby national parks.

Can you accommodate special dietary requests?

YES - with reasonable advance notice. We are pleased to accommodate vegetarian, vegan, lactose intolerance, gluten-free, low sugar, quasi-kosher and quasi-halal. We are likely unable to accommodate more esoteric special dietary requests.

What is NOT included in the trip price?

Our ambition is to keep your trip price as low as possible with a la carte options to cater to everyone's personal choices. Crew gratuities are not included. Neither are rentals, nitrox, internet connection, bar charges, and gift shop purchases.

What fees do I have to pay?

Your national park fee and the 5% tax will have been included with your pre-trip payment, so no worries about that! We never do fuel surcharges or any other additional fees. There are no fees that need to be paid onboard.

What hotel do you recommend?

There are so many options. It depends if you want to go straight to Golfito or enjoy adventuring through Costa Rica on a multi-day trip to Golfito. There is a reasonably priced boutique hotel right in the marina at Golfito, Golfito Bahia. If you want to stay over in San Jose, we recommend the Hotel Grano De Oro, which is 13 km from the airport. We recommend contacting our concierge for assistance and recommendations with your hotel booking.

How do I get from SJO to the local hotel in San Jose?

If you decide to stay in San Jose after arrival, we recommend taking a metered taxi (official taxi) from the departure hall to the Hotel Grano De Oro.

How do I get from SJO to Golfito?

Choose between connecting flights with Sansa Airlines (with some luggage restrictions), a private car with a driver, a multi-day tour of Costa Rica, or our courtesy shuttle on the afternoon of boarding (**12:30 pm** pickup at the Hotel Grano De Oro) directly to Golfito. Our concierges are on standby to assist with your arrangements.

What time can I board the ship?

After 6:30 pm on departure day. We are excited to see you and imagine you will be excited to say hello and get your luggage onboard. However, please allow our super hardworking crew time and space to prepare the ship and resist the temptation to come by before 6:30 pm. The ship sails at 8 pm.

What are the sea conditions like? Will it be rough?

There is one night with a short ocean crossing on these trips. That's it and it will be an adventure. It might be smooth and calm. Or sometimes not in which case the captain will adjust the itinerary to give you the smoothest ride possible. The rest of the trip should be in quite calm sheltered waters. The Explorer is our flagship that has sailed through everything, from the current swept chilly waters of Alaska to adventuring down to Clipperton Atoll, just north of the equator. We always recommend the scopolamine "patch" and a cocktail to help relax onboard.

ABOUT DIVING

What dive experience is needed?

We cater to divers of all experience levels, self reliance and physical fitness. Most diving is with our dive guides in which case you need to have the solid skills of an open water certified diver including good buoyancy controls. Experienced and self reliant divers are welcome to “do their own thing”. Private or group dive mastering is available by prior request for those who are less comfortable with their open water skills. Please note: that unless a divemaster has been prearranged for, we only provide dive guiding with solid and informative briefings, in-water critter pointing and assistance with navigation. While our dive guides are all certified and experienced instructors, they are not providing “dive mastering”.

Do I need to dive with a dive guide?

Depends entirely on your experience, self reliance and physical fitness.

Are the boats camera friendly?

YES, VERY!

What are your safety protocols?

Safety, excellence in guest experience and happy staff and crew are the cornerstones of our business. Nothing is more important than your safety. At Nautilus, we are proud to be the only dive operation in the world with ISM certification and external annual audit of an SMS (Safety Management System). This is the same certification as the largest cruise ships on the oceans. We operate within written processes, procedures and checklists that our captains and crew are trained into both initially and annually. Every dive starts with a briefing on a white board. We require that all divers carry LifeLines marine rescue GPS, SMBs and dive alerts. We will loan you one of ours if you are missing any of this safety equipment. We carry AEDs and extensive medical kits with a contract medical officer available shoreside via our sophisticated satellite communication system.

Is there nitrox onboard?

Yes, and it's highly recommended for all divers.

Water temperature?

78- 82 °F (27 – 28 °C).

WHAT TO EXPECT

What's the weather like and what clothes should I bring?

Well, it's the rainy season in the tropics!! We recommend casual and cool attire onboard (t-shirt and shorts). It can be drizzly in the afternoons and we recommend bringing a windbreaker and a fleece vest or sweater just in case. Make sure you bring good shoes if you are interested in going ashore for a hike. It's spectacular onshore. Just wait until you see the waterfalls!

Is there internet and WhatsApp onboard?

Yes. Internet and WhatsApp connection are available for \$120 per trip. Please keep in mind that a satellite tracking system at sea only gives limited speed internet access. You won't be able to stream Netflix!!

Is there a fuel surcharge?

Of course not! We figure that dive boat companies that charge a fuel surcharge year-in, year-out are just taking an extra fee onto the trip.

What's an appropriate crew tip?

US\$125 - \$175.

More questions?

Contact our concierges. They will be in touch in the regular way pre-trip to assist with logistics, pre and post activities, transfers and so on.

Phone: +1 (604) 241-1918 extn #3- Please ask for our concierges.

Excursion Risk

We are excited to have you join us, but feel compelled to point out [some of the risks](#) involved in going to sea on one of our ships.

On a voyage like this, we are always at the whim of Mother Ocean. All of our ships are equipped with the latest in satellite technology, full time data links, internet at sea and marine radios. We can't control the weather but we can monitor the forecasts very carefully and our shoreside management team is in constant contact with the ships and available 24/7 in case of emergencies. We need you to be aware that there is always a risk of adverse weather, mechanical breakdown, errors or mistakes made by our crew, medical evacuations or other interruptions to your trip that are beyond our control.

You can be sure that we will do our best to protect the health and safety of our guests and crew including the following core principles; temperature and health monitoring -> personal hygiene with frequent hand washing, using sanitizer, not touching face, coughing or sneezing into one's elbow -> social distancing -> disinfecting with 1 week hold times using fogging machines -> isolation, quarantine or emergency airvac to shore for possible cases. HOWEVER, we cannot promise that you won't come in contact with someone infected and we cannot promise that you won't potentially get sick.

Guests are responsible for their own dive safety. Our guides are not responsible for teaching primary dive skills or looking after guests who do not have basic buoyancy skills. Diving with marine animals entails risk. Scuba divers risk embolism, dehydration or other medical issues. Guests and crew alike are susceptible to accidents, tripping and falling, sprains or broken bones, heart attacks, stroke or medical conditions such as appendicitis, pancreatitis, diabetic complications, severe infections, abscesses or other emergency conditions.

We sincerely hope that none of our guests will ever have a medical emergency, but in the highly unlikely event that one occurs, we will provide basic first aid and arrange for medical consultation and a medevac. It's vitally important that you have insurance to cover these costs. We cannot cover them ourselves. [Click here](#) to purchase a policy. The coverage is very reasonably priced.

A sample [liability release and waiver can be viewed here](#) and requires your acceptance, agreement and signature before boarding your ship.

We wish you an amazing and completely uneventful trip with smooth seas and excellent diving.

PASSENGER GUEST WAIVER, RELEASE AND INDEMNITY (the "Waiver")

In consideration of you allowing me to participate in your camping and/or whale watching and/or excursion (the "Excursion"):

I voluntarily waive, release and forever discharge NAUTILUS DIVE ADVENTURES AND/OR all its related entities: ICARUS AVIATION LTD also doing business as "Lever Diving" AND/OR NAUTILUS EXPLORER MEXICO, S. DE R.L DE C.V. AND/OR 3-101-878943 S.A. (collectively the "Company") and its employees, directors, officers, agents and contractors (collectively the "Operators") from any and all liability, including but not limited to liability arising from the negligence (including gross negligence) or fault of the Operators or any of them for personal injury or death, property loss or damage or any other claims of any kind which may occur to me during or in connection with the Excursion and/or the use or misuse of any equipment, vessels or vehicles.

I agree that all agreements made between the Operators and myself (including this Waiver) shall be governed by the laws of Canada and the courts of British Columbia shall have exclusive jurisdiction over any matter relating to the said agreements or this Waiver.

I agree that this Waiver shall be binding upon my heirs, executors, administrators, successors, assigns and my estate and I agree that in the event that a claim is made against the Operators or any one of them in respect of any cause of action relating to me, I will indemnify the Operator(s) for their losses, damage and expenses arising from such claim.

I confirm that I have both read and fully understood the description of the risks involved in participating in the Excursion as set forth in the Company's disclosure information entitled "DIVING EXCURSION RISKS" published on the Company web site (<https://nautilusliveaboards.com/diving-excursion-risks/>) and in the pre-trip information package provided to me.

I also confirm that I:

- (a) am physically fit; without any health related reasons that would otherwise preclude my;
- (b) have had sufficient instruction, preparation and/or training for; and
- (c) have not been advised by any medical professional to avoid participation in the Excursion.

Finally, I confirm that I read and fully understood this Waiver before signing and, that I had the opportunity

Please note that you will be required to sign this waiver form upon the arrival at the hospitality suite.

Our Responsibilities, Your Responsibilities

Our Responsibilities

- To ensure your safety.
- To give you the best possible diving experience.
- To treat you with respect and consideration and to provide excellence in service onboard.
- To be responsive to special requests and needs.
- To plan each trip with respect to weather, sea conditions and animal behavior in order to maximize your diving experience.
- To keep our ships in top condition, clean and in good mechanical repair. Please note that each ship has many complex systems and it may be impossible to prevent some maintenance problems during your trip, despite our best efforts.

Your Responsibilities

1. Animals

We love Mother Ocean! Unfortunately, sometimes guests will demonstrate unsafe or irresponsible behavior towards animals that impedes other guest's experiences and/or may cause harm to the animals. It is your responsibility to follow the crew's directions and recommendations with respect to interaction with the animals. In the unlikely event that an individual is impeding other guests and/or causing harm to the animals, the captain will speak to that person and give them a formal warning. If the guest continues the same behavior, the captain has the authority to hold that guest out of the water for the remainder of the trip.

2. Diving Safety

It is your responsibility to attend dive briefings and comply with the principles of safe recreational diving. Deco diving or deliberately "going blue" is not allowed. The captain has the right to revoke the diving privileges of anyone who is diving in an unsafe manner.

3. Alcohol

With over many years of operational experience running charters, we have learned the safest alcohol policy is to restrict guests from bringing their own alcohol on board. We provide a wide selection of beer, wine and alcohol from the ship's bar at reasonable prices. We are also happy to hold your duty-free purchases or local purchases of alcohol in bond in the ship's storage until the end of your trip.

4. Government Rules

You must comply with all Costa Rican government rules and regulations. Please note that government regulations and laws may change without notice. Our contract with you is subject to "force majeure" without compensation.

5. Marijuana

Marijuana is illegal in Costa Rica including medicinal prescription marijuana. We have a zero tolerance policy regarding guests bringing marijuana onboard.

6. Illegal Substances

We maintain a zero tolerance for illegal narcotics or substances on board. We're required under Costa Rican law to report any problems to the Costa Rican Federal Police.

7. Crew

Treating our crew and staff with courtesy and respect.

8. Getting Sick

We sincerely hope that you stay healthy and don't get sick during your trip. Please let the crew know if you are not feeling well so that we can give you extra love and attention and also do our best to prevent anyone else onboard from getting sick.

A Note on Gratuities

© Scott Davis

I hope we have left you with the feeling that our crew has served you with warmth, good cheer, and has done their very best ensuring your safety and excellence in guest services. I am incredibly proud of our hardworking and dedicated staff.

Attitudes towards tipping vary around the world. In Costa Rica, it is considered disrespectful to the crew and staff to not leave a gratuity if the service is deserving. For guidance, most guests leave a tip of US\$125 to \$175.

We greatly value your feedback about your experience with us, including anything we can improve on. I would really appreciate any comments or thoughts you might share. Simply click on **“Your Feedback”** on the boat Wi-Fi portal to share your thoughts.

On a personal note and as my thanks to you, I invite you to join our Last Minute Club, exclusively for repeat clients. Members receive incredible savings of up to 75% on last-minute adventures, offered 3 or 4 times a year. If you love awesome deals, simply click on **“Last Minute”** on the boat Wi-Fi portal to sign up.

Thank you very much for trusting us with your vacation!

Sincerely,

A handwritten signature in black ink that reads "M. Lever".

Captain Mike
Proprietor, Nautilus Adventure
